Ukrainian Cultural Center

Important update

WE have begun the restoration of the half dome (South side of our Church), SME - Soil & Materials Engineers Inc are responsible for the restoration. Any extra donation is most welcome. Thank you

In the near future, work needs to be done on the east and west walls of our church building (mostly on the exterior) to prevent water infiltration that causes damage to the walls. A better system to prevent "sewer back up floods" in our Church and rectory basement is needed. Last summer we cleaned the

church and rectory sewer to prevent "sewer back up floods", but more work will need to be done in the future.

Due to additions to the church building restoration project our new cost estimate for the completion of this phase of restoration is approximately \$280,000

Following the advice of the Immaculate Conception Ukrainian Catholic Church Executive Council, and approved by the Parish Pastor, we will continue the Restoration of our church building one step at a time, as much as our finances allow us to each year.

It is important to understand that a building like our Church needs maintenance work every year, it is just like your own home.

Thank you for your support of our Restoration project, for allowing us to do the maintenance work needed to our church building, and for your support of our Parish. We have accomplished great things in very difficult times; we will continue to do so. With faith and determination we will safeguard what we have received for future generations, which is the mission given us by the almighty.

Father Daniel Schaicoski, OSBM
Pastor/Superior
